Add-ons

- Respective soft copy of the chapters had been sent for the practice of the students.
- Apart from the syllabus, assessment for the students conducted as part of Revision on the curriculum.

- **Though our Training Module is of Campus Recruitment Training, still as a good will to the institution & benefit for students, we have practised the students with TCS oriented papers FREE of COST (though it was part of another module TCS SPECIFIC TRAINING)**
- **Aptitude is a vast module. But within the limited duration of the Training of 64 hours, apart from the proposed syllabus covering the most important chapters, we have managed to give few extra chapters to the students which are not mentioned in the syllabus like Mensuration, Ratio & Proportion, Cloze Test so that students can face various patterns of entry level examinations**
- Company's Contact details have been shared so that the students remain in contact with the team not only until they get job, but for their life time.
- We have provided 4 hours extra to the students on the students demand.
- We are trying to attend all the doubts of the students over call and mails.

General Feedback for all the batches

- They are trying to ask their doubts.
- Few students are bringing company oriented papers in the meeting for discussion which shows positivity of the students.
- Calculation part is still weak due to lack of practice and habit of using Calculator.
- Students are very good in nature but communication part is very weak.

Tips to the students

- Participate in as many as aptitude quizzes as possible.
- Keep revising the concepts given in training sessions.
- Try to solve company oriented papers
- Interact with the seniors and try to get placement papers for more practice
- Try to avoid calculator for solving Quantitative Aptitude
