Shri Mahatma Basweshwar Education Socitey's

M.S. Bidve Engineering College, Latur

Annual e-governance Report

VRIDDHI software runs on Intranet of college on local server which is used by Principal, Clerks, Librarian, Exam Section and Teachers. The cloud based Online Portal is used by Management, Principal, Teachers, Parents & Students. Both part of software interchange data automatically.

The Main ERP, VRIDDHI Software has 6 integrated module like Student Modules, Employee Module, Exam Module, Library Module, Account & Finance Module and Hostel Module.

Digital Library is a part of VRIDDHI Software works on college intranet, Books & periodicals can be scanned to PDF and attached to Accession Record. Syllabus, Teacher's Note, Question Bank can be added in WORD, Excel, Power Point and PDF format. The library members can search that material for reading.

The Online Portal is used for submitting Merit Form & Admission Form. While filling admission form, it takes master data from college server and sync back. Student get Admission Form, Eligibility, Anti Ragging, Required Document, Subject Grouping, Photo and Sign with a single shot. College clerk did not need any extra data entry except making admission with bar coded admission form no.

This portal has 5 different logins and each login has different facilities. Anyone can use web based OPAC to search library materials which is linked with college library.

Administration Management

Administration Management

Administration module oversee all other department of college or school, it provides starting point for each and every transaction or activity which take place in College ERP System Modules. Administration department plays important role for managing entire core operations of any organization. 'An College Administration Software module is a first step to make defaults setting of other modules like student management system,library management system,MIS System,Examination management system,Reports e.t.c.

Administration software manager looks into credentials management of every student; teachers and staff also assign appropriate rights and permission according to their designation and roles in organization. Administrator look that management information system data is being inflow into integrated system so that all other department works smoothly and efficiently. College or school administration software has to make all arrangements so that College or school ERP system is used properly and all check guidelines laid down by UGC is being followed as it is backbone of institute. Administrator can pull out activity log sheet of all other department working in the system and review activities of users, statistics of any department. Dashboard of college administration software or school administration software is designed in way that information can be presented to management wasting no time. Taking backups of previous records, managing, deleting and editing of records can be done by administrator. This module surely adds wings to your system and helps for working of other modules.

Finance and Accounts
College accounting software is well designed that entire finance department can execute their work responsibility so easily and keep up to date information. All accounting transaction are carried out in software like receipt voucher, payment voucher, journal and contra voucher entry can be performed through interface. Account creation and maintenance is done through this module like various income and expenditure account. Creation of trial balance, balance sheet is done within seconds so concern staff can present any required financial information easily by this school accounting software. Each voucher updates ledger balance as soon as data entry is completed.

Financial Accounting Module

a. Data entry of voucher
b. Cash/Bank Book
c. Ledger Extract
d. Receipt & Payment Account
e. Income & Expenditure Statement
f. Bank Reconciliation
g. Trail Balance
h. Balance Sheet

Student Admission and Support

Student Management

A new student comes for admission, staff just needs to add details of the new student into the college admission system. Then these details can be used for further actions and these details can be changed very easily whenever required using this system. An admission management software will create unique ID for every student automatically with every new entry. Roll number will also be assigned to the student automatically with the help of Roll number assign method.

By using admission management software batch allotment is done to the student and record for the same is maintained into the system. In the same way, batch shifting records are also retained.

All the essential College ERP Software Reports and information like photograph, parent information, permanent address, emergency contact is collected into the college admission system.

Examination

Examination Management System is useful for both Students and Faculty as well. They can use it based on accessibility they are provided with. Users at various levels are provided the rights and privileges to perform different set of operations. For Example, administrator can verify the data and generate the list of eligible and non-eligible candidates based on defined criteria and also can keep track of the students who have confirmed the admission but not submitted their examination forms. It also shows unpaid fees data from fee collection software so hall ticket can be hold.

As University conducting the exam so for student using the university site to fill the exam form and download the hall ticket . From University website the marks can be seen through the student login.
