Ph.: (02382) : 221255, 221846 Fax. : 221455, website : www.msbecl.ac.in e-mail: principal@msbecl.ac.in

2.2.1 - The institution assesses students' learning levels and organizes special programs for both slow and advanced learners.

Institute has well defined policies and procedures for the identification of different types of learners. Mentor-mentees are finalized where a mentor guides a mentee in their professional development. The program can help mentees gain skills, advance their careers, and build confidence. It can also help mentors establish leadership skills. Class mentors and subject in charge identify the slow learners and advanced learners during the teaching learning process by observing their performance in different activities as well as the marks obtained in mid semester exam of every semester.

Slow Learners: Apart from conducting remedial classes, these students are also provided notes, question banks, and directions on how to present the answers in the exam so that the students can enhance their academic performance. Links to e-books, subject-related video lectures are some of the other initiatives.

For Advanced learners: Students having good academic records are encouraged to achieve higher ranks in final exams .These advanced learners are motivated to take competitive exams like GATE, GPAT, GRE, etc. Students are encouraged to take up value-added courses, online courses from NPTEL to augment their skills.
