Soft Skill and Personality Development Club
Academic Year 2025-26

Soft Skill and Personality Development Club

Bridging the gap between academic theory and professional practice, our club empowers students to navigate diverse career paths. Through a curated mix of industry seminars, competitive events, and skill-building workshops, we cultivate essential leadership and communication expertise. Our mission is to foster an entrepreneurial mindset and provide the real-world exposure necessary for students to graduate as confident, career-ready professionals. Join us to develop an entrepreneurial edge and gain the confidence to launch your career with impact. We provide the tools, mindset, and exposure students need to transition seamlessly from Campus to Career.

Vision: Empower students to bridge the gap between education and employment by fostering professional confidence and a career-ready skillset.

Mission: To inspire and equip the next generation of leaders through transformative development opportunities and a community-driven approach to learning.
